DIWAKAR TALWAR

DATA ANALYST | POWER BI | PYTHON

Lucknow, Uttar Pradesh | 9335629553 | diwakartalwar44@gmail.com | www.linkedin.com/in/diwakartalwar

PROFESSIONAL SUMMARY

Entry-level Data Analyst with experience in data analysis, dashboard development, risk-focused research, and machine-learning-based logistics optimisation projects. Hands-on with Power BI, DAX, Power Query, SQL, Python and Pandas, with prior internship experience in analytics and Django development. Currently pursuing an MCA at the University of Lucknow. Also prepared for competitive bank examinations during an academic/career transition period.

TECHNICAL SKILLS

Analytics & BI: Power BI, DAX, Power Query, data modelling, KPI design, dashboard reporting
Data & Programming: SQL, MySQL, Python, Pandas, data cleaning, exploratory analysis
Web Development: Django, HTML, CSS, JavaScript, authentication, CRUD workflows, form validation
Tools: Excel, Git, Jupyter Notebook, Anaconda
Additional Exposure: Trading risk analysis, financial modelling, logistics optimisation, machine learning

EXPERIENCE

Data Analyst Intern | **Unified Mentor** | *Feb 2026 – Aug 2026* | *Remote*
- Worked on a machine-learning-based logistics optimisation project focused on improving factory allocation and shipping decisions.
- Applied Python and Pandas to support data preparation and analysis for the project.

Trading Risk Analyst (Trainee) | **Ztheta Algorithms Private Limited** | *Jan 2026 – Mar 2026* | *Remote*
- Completed a structured, project-based training and research programme focused on derivatives risk analysis.
- Built familiarity with trading-risk concepts and financial modelling through guided project work.

Data Analyst Intern | **NullClass** | *Apr 2025 – Jun 2025* | *Remote*
- Built Power BI dashboards using social-media data covering 10,000+ tweet records.
- Created DAX KPIs to evaluate engagement rates and posting-time ROI.
- Cleaned and transformed data with Power Query to improve consistency and reporting readiness.

Django Developer Intern | **Analyze Infotech** | *Sep 2023 – Oct 2023*
- Developed authentication modules and CRUD workflows for a Django application.
- Improved UI responsiveness and added form validation to strengthen user experience.
- Documented updates and tracked code changes using Git while resolving bugs.

SELECTED PROJECTS

Power BI Social Media Dashboard
- Analyzed 12,000+ tweets and presented findings through interactive Power BI dashboards.
- Built DAX KPIs and drill-through reports to explore engagement patterns.

SQL Data-Cleaning Tasks
- Cleaned datasets by removing duplicates, correcting timestamps, and handling NULL values.

Django Gas Booking System
- Built a gas-booking application with authentication, CRUD operations, and admin tools.

AI & MACHINE LEARNING PROJECTS

Anvi — Modular Local AI Assistant (In Development)
- Designed a modular local-AI concept using a lightweight supervisor model to route tasks to specialised expert models and tools.
- Planned components include retrieval/memory, calculator and web-search tools, and domain-focused experts for coding, reasoning, maths and writing.

QLoRA Fine-Tuning Experiment — Hugging Face / Qwen2.5
- Experimented with QLoRA fine-tuning of a Qwen2.5 Instruct model using a small instruction dataset to improve command-following behaviour.
- Tested model outputs and iterated on training/inference settings; documented limitations and areas for further evaluation.

EDUCATION

Master of Computer Applications (MCA) | University of Lucknow | 2026–2028
Bachelor of Computer Applications (BCA) | University of Lucknow | 2021–2024

CAREER PREPARATION

Career preparation (2024–2026): Prepared for competitive bank examinations while strengthening technical skills and planning the next academic and career step.
